## NEVER GET ANOTHER VIRUS OR MALWARE GUARANTEED!

Viruses and malware always attack at the most inconvenient times! With the same concept as pest control companies we are offering a Preventive Maintenance Plan to PREVENT the infection of viruses and malware! If you get infected, we clean it for free!

There is an initial \$79 cleanup / setup fee where we do a deep cleaning of any viruses / malware / spyware, clean internet cache and temp files, and much more. After that, we will login to your machine remotely once a month (your computer stays in the comfort of your own home) and perform monthly maintenance to maintain its optimum performance and keep it clean of any infections.
